⑤ Newsletter Banner: 660(W) x 100(H) - US\$400	
⑥ Newsletter Banner: 160(W) x 275(H) - US\$250	

2. Free Advertorial service

Advertisers **more than 3 full page insertions or 6 insertions of 1/2 pages per year** can get 1page ad + 1 page product page (or 1/2page ad + 1/2page free product introductory page) chance.

With this opportunity, you can use almost double the space than you contracted initially. For example, If you contracted 3 full page ads on May, July, and September, then you can have 6full pages in total with this opportunity.

3. Exhibition Review article service

Free review article service is going to be provided after major exhibitions we participate. Please refer to the Bonus distribution section on editorial calendar page for upcoming schedules in our media kit 2009. You will be more than happier finding out your CEO's interview page or product introduction page at InterPV magazine after some major exhibitions. Find out more for the exhibitions we participate at our Media Kit. (please refer to #5 as well)

Experience Energy². Now.
With Schüco.
Atlantic Hall,
COEX.
Stand I 31 - I 33.

The greatest challenge is climate change. The greatest opportunity is to halt this by using regenerative energy, whilst simultaneously capturing the economic possibilities. In short, Energy² now from Schüco. Saving and generating energy not only reduces CO₂ emissions, but also yields economic potential by using the sun - mankind's largest energy source. Comprehensive systems are available for solar power and solar heat. For all areas - from private homes to industrial and large projects, as well as free-standing installations. Take a look at Schüco solutions for a secure and successful future at Expo Solar / PV Korea in Seoul. Energy² now.

SCHÜCO

The power behind the panel.

Trinasolar

There's more behind Trina Solar modules than the electricity they generate from the sun: Combine a world's leading fully integrated production line with a team of highly dedicated international professionals in Technology, Quality, Sales and Service, located in each key market, and you will begin to understand the real power behind the panel. For more information, please visit www.trinasolar.com.

All advertisers can get double-exposure chance. One is our magazine ad, the other is the Digital Book service. Digital Magazine is electronic form of InterPV magazine which has the same contents of its printed version. It is designed to be connected directly to the web pages, emails and related websites with a single click while you are browsing it.

It can be delivered to the customers who want to read it directly by email.

Please visit website for reading full contents of the latest issue of InterPV at www.InterPV.net.
